

Advanced Pediatric and Neonatal Simulation Workshop, Kolkata: Report

The Advanced Pediatric and Neonatal Simulation workshop was conducted for the first time in Eastern India, Kolkata at AMRI Hospital, Mukundapur, Kolkata on 22-23 June 2014.

The Workshop was attended by nearly 22 candidates, all of PICU background and practising in Kolkata in Government and Corporate institutions. The 2 day workshop started with lectures on basics of pediatric intensive care followed by skill stations and simulation scenarios spread over 3 stations. All the sessions were rated excellent to good with a uniform need to further simulation in paediatrics and neonates on a bigger scale.

Feedback of the course:
