

Pre-Conference Simulation Workshop- 22nd August 2026

Trauma Simulation Workshop

Trauma Emergencies by Simulation

TraumaSIM is an intensive, hands-on, simulation-based workshop designed to equip healthcare professionals with critical skills required to assess, manage and respond effectively in high-stakes trauma situations.

Through realistic, high-fidelity simulation scenarios, this program focuses not only on clinical expertise but also on essential human factors such as communication, teamwork, and rapid decision-making in trauma care.

What You Will Experience

- ▶ Immersive, scenario-based simulations covering Adult, Pediatric & Obstetric trauma.
- ▶ High-realism trauma care environments for experiential learning.
- ▶ Team-based training in trauma code management.
- ▶ Expert-led facilitation by ER Physicians & Simulation Experts.
- ▶ Structured debriefing sessions for reflection and improvement.
- ▶ Trauma skill training and Learning by Gamification.

SUPPORTED BY

Pre-Conference Simulation Workshop- 22nd August 2026

Learning Outcomes

- ▶ Perform rapid trauma assessment and prioritize interventions.
- ▶ Apply structured approaches in high-pressure trauma scenarios.
- ▶ Enhance teamwork and communication during trauma resuscitation.
- ▶ Improve crisis resource management and decision-making skills.
- ▶ Strengthen patient safety practices and error prevention.

Who Should Attend

Emergency
Medicine
Physicians

Nurses
(ED, ICU, OR)

Paramedics
& EMS
Personnel

Medical
Students &
Residents

Simulation
Educators &
Co-ordinators

Maximum participants: 40
Time – 8.00 a.m. – 4.30 p.m.

VENUE: KIMS MAHADEVPURA, BENGALURU

National Coordinators:
Dr Jui Lagoo (9740055700)

Local Coordinator:
Dr Gurudutt (7022336783)

INR: 3500 (Early Bird 31st May) | 4250 (1st June onwards)
USD: 75 (Early Bird 31st May) | 90 (1st June onwards)

Conference - 23rd
August 2026
